## FSC-CERTIFIED CLOSURES NOW AVAILABLE!

As part of our commitment to the responsible use of resources, Portocork now offers corks accredited through the Forest Stewardship Council (FSC) under the stringent Rainforest Alliance Smartwood Program.

The Forest Stewardship Council sets standards to ensure forestry is practiced in an environmentally responsible, socially beneficial and economically viable ways. FSC certification requires that Portocork's cork products are manufactured according to a prescribed chain of custody that begins in the forest and continues until the closure is sold to the winemaker.

Producing FSC-certified corks underscores our commitment to sound eco-conscious practices. Portocork is proud to offer customers this option, and we encourage you to contact us for more information.
