## LEGISLATORS RECOGNIZE OUR RECYCLING EFFORTS

For the 2nd year in a row, Portocork received recognition for its comprehensive recycling programs from Congressman Mike Thompson's office and the State Senate. These recycling recognition awards stem from random "recycling audits" administered by Napa Recycling & Waste Services (NRWS).

What NRWS found is that Portocork has found ways to recycle nearly all of our "waste products", from the obvious corrugate and paper, to shrink wrap, cork bale bags and even food scraps from our employee break room. As a company, Portocork is committed to identifying and implementing the reuse, recycle and/or compost of everything in our waste stream.

Recognizing our efforts, Congressman Thompson presented Portocork with a certificate of Special Congressional Recognition for Outstanding and Invaluable Service to our Community. Additionally, California state legislators Pat Wiggins and Noreen Evans recognized Portocork for our outstanding recycling efforts. Kudos to all Portocork employees who helped earned these honors by making recycling a priority every day!
